## ABOUT

Lancia Soans (Founder) Luxury Lifestyle Adviser, artist, designer and curator has been a collaborator with Elite Professional Executives in Luxury Real Estate, Finance, Fashion, Art and Design, elevating the aesthetics, and the value of meaningful connections through sophisticated art and gifts. Transitioning from a Corporate environment to entrepreneurship, created a path for her to continue to engage with executives in a creative and insightful manner. Her distinctive art and gifts have found their way into the hands and homes of high-end Luxury Real Estate professionals, Corporate Executives and dedicated patrons of the arts at private events.

Lancia's journey has been one of Innovation and Passion, that she uses to craft the finest, distinctive, elegant, and sophisticated art and gifts for her most discerning clients. Raised by a mother who fashioned sophisticated handmade bags and tailored embroidery, led her to find her own passion as an artist bridging old values while creating a path into modern art and design.

Lancia has been an entrepreneur at Lancia Designs for 14 years, although her first experience at being an entrepreneur was when she was selected by Bank of America overseas to explore the possibility of extending the bank services from corporate banking to retail banking services. Leaving the corporate world, Lancia's passion for art and design led her to attend the International Academy of Design in Toronto, Canada. Lancia has a Bachelor's degree in Sociology, and attended Florida Atlantic University where she studied Journalism and Communication. She is one of the contributing authors of the book *America's Leading Ladies who positively impact our world.*
